Bohong Li

United Software Corporation

FEIN: 84-3093977

This letter confirms that you have been offered a position as Software Developer with United Software Corporation from 04/20/2020. You will report to Han Xie at 6200 La Calma Dr # 115, Austin, TX 78752.

Headquartered in Austin, TX, United Software Corporation is a professionally managed company providing Information Technology Solutions, Custom Software Development, Enterprise Software Implementation, and Cross-platform Application Integration services in a wide range of industries.

As a Software Developer, you will perform the following duties for 40 hours per week:

- Implement front-end user interface design by using React and Redux
- Attend sprint planning and scrum meeting
- Create a view layer with different components. Button, drop-down menu, collapse menu, search bar all these are implemented through React components
- Use Bootstrap for the Responsive design of the application
- Utilize HTML5 Form Validation and Attributes Restrictions to validate inputs
- Gather required data from the backend using XML request
- Participate in designing and developing models, algorithms simulations and structured Programming

This opportunity is offered in conjunction with the completion of the undergraduate program at Ohio University in the field of Computer Science. Through this opportunity, you will be able to apply theoretical concepts in a practical environment and enhance further communication, observational and organizational skills.

United Software Corporation affirms that this position and duties to be performed are supplemental to our current staffing and will not replace or replicate an existing or vacant position.

Sincerely,

Han Xie
